PERRY S. HEATH IS OUT.

Tenders Resignation as Secretary of
Republican Committee.

Cleveland, Feb. 22.—Perry S. Heath, former first assistant postmaster general and secretary of the Republican national committee, has wired his resignation of the latter position from here to Acting Chairman Payne at Washington as follows:

"Due to the death of Chairman Hanna I tender to you my resignation as secretary of the Republican national committee, effective immediately." Mr. Heath stated that the telegram told the entire story and he had nothing to add to it.

To Its Final Resting Place.

Cleveland, O., Feb. 22.—Monday afternoon, without unnecessary ceremony, the casket which contains the remains of the late Senator Hanna will be placed in the tomb. The members of the family only will attend the burial.

RUSSIANS DEFEATED ON THE YALU RIVER

FIRST BIG LAND BATTLE RESULTS IN GREAT VICTORY FOR JAPANESE.

VERY HEAVY LOSS OF LIFE

TWENTY-FIVE HUNDRED TROOPS OF THE CZAR KILLED IN THE ENGAGEMENT.

ANOTHER VESEEL IS SUNK

RUSSIAN CRUISER STRIKES ON ROCKS AT PORT ARTHUR AND FOUNDERS.

London, Feb. 22.—There are vague rumors of land fighting in Korea. The St. Petersburg correspondent of the Paris edition of the New York Herald tells of a Russian repulse on the Yalu river with a loss of 2,500 lives.

The Morning Post's Chefoo correspondent says tens of thousands of Japanese are advancing by forced marches from various parts of Korea and that severe fighting is expected shortly.

Chefoo, Feb. 22.—The captain of the German steamer Pronto just arrived from Dalny says positively that besides the torpedo gunboat Veseel, accidentally destroyed by one of her own mines, the Russians have just lost another ship by accident on Feb. 12. This was a small cruiser, whose name was not learned. In avoiding some mines she ran upon rocks from which she eventually slipped off into deep water and sank. There was no loss of life. The Russian authorities insist that there is no truth in the story that a force of 1,000 Japanese landed at Pigeon or Dove Bay, had been annihilated. Troops are being rushed toward the Yalu with all expedition possible.

The supply of fresh vegetables and beef in Port Arthur is getting very short and speculators are endeavoring to secure steamers to run the blockade.

JAPANESE FLEET ALL RIGHT.

Report That It Was Crippled at Port Arthur Untrue.

Tokio, Feb. 22.—The reports from various quarters saying that Admiral Togo's fleet was partly crippled in the operations at Port Arthur, are unfounded.

It has been unnecessary to send a single large ship to Sasebo for repairs. Two torpedo destroyers have been damaged, but not in fighting. The Akebono in attempting to coal from a collier during a storm collided with the Oboro, disabling her machinery. Both were sent to Sasebo to be repaired and they will be ready for service soon. The armored cruiser Chiyoda has been docked at Sasebo and cleaned. She had been in the water for months and her bottom was so foul that her speed was impaired. The battleship Shikishima, which was injured on the eve of war, was repaired in time to participate in Admiral Togo's attack on Port Arthur.

The Russian Vladivostok squadron was reported Sunday on the west coast of the island of Hokkaido, attempting to cut the cables. The navy department, however, discredits the report and believes that the squadron is still at Vladivostok.

FIRING AROUND PORT ARTHUR.

Believed to Be From Attempted Approach of Torpedo Boats.

Port Arthur, Feb. 22.—Sounds of desultory firing at sea are heard almost nightly and Sunday morning firing was again heard. This is doubtless due to the attempted approach of Japanese torpedo boats, but nothing serious has developed.

The garrison is in excellent spirits and is firmly convinced of the ultimate success of the Russian arms.

The Novi Kral prints a long article invoking historical precedents to prove the illegality of the Japanese declaration that fuel and vitals will in all cases be treated as contraband of war. The paper describes Japan's attitude as presumptuous and urges the neutral powers to disregard it.

JAPANESE CRUISER SUNK.

Several of the Mikado's Men Killed in Chemulpo Fight.

St. Petersburg, Feb. 22.—The official account of the battle of Chemulpo given by M. Pavloff, Russian minister of Korea, who left Seoul for China Feb. 13, is practically identical with the report previously cabled. M. Pavloff says that the Japanese captain of the cruiser Takachico sank his vessel the night following the battle and that the Russian fire silenced the Asama's fore barbettes and wrecked her bridge. The Asama transferred eighty killed or wounded to a transport.

IN SLIGHT SKIRMISH.

Russian Pickets Attack Small Force of Japanese in Korea.

St. Petersburg, Feb. 22.—A dispatch from Port Arthur says the first land encounter occurred during the day. A picket of Cossacks attacked a small detachment of Japanese troops on Korean territory. The Cossacks captured some Japanese prisoners on whom they found maps and papers.

The collision was presumably between reconnoitering parties. A general engagement is not anticipated immediately.

FAITH IN KUROPATKIN.

Russians Believe He Will Lead Them to Victory.

St. Petersburg, Feb. 22.—The appointment of General Kuropatkin, who was Saturday relieved of his functions as minister of war, to the chief command of the Russian army in the far East, was gazetted Sunday morning.

With the possible exception of General Dragomiroff, formerly governor general of Kieff, and later member of the council of state, General Kuropatkin is the most popular man in the Russian army. As a bluff old soldier who has fought his way up from the bottom to be minister of war, he is the idol of the enlisted men. Not one in the czar's army has seen more fighting, and no one can tell a story better. There is never a dull moment in his company for he intermingles the humorous incidents of his campaign with tales of the self-sacrifice of the men whom he led with Skeleff over the parched wastes of Geok Tepe or over the icy slopes of Plevna.

The appointment of General Kuropatkin to direct command in the field has been received with enthusiasm and his leadership inspires complete confidence that there will be no mistake and that Russian arms will be carried to success on land.

General Kuropatkin will be accompanied to the front by the Grand Dukes Boris, Alexis, Nicholas and Michael Nikolaievich.

The emperor and the empress gave a luncheon Sunday to General Kuropatkin and the grand dukes at the Alexandra palace, Tsarsko-Selo, and bade them farewell.

The exact mission of Grand Duke Alexis is unknown but it is undoubtedly an important one, as he has been in supreme command of the Russian navy as president of the board of admiralty, taking an active part in the negotiations preceding hostilities. He presided at the special council which prepared Russia's undelivered reply to Japan.

Alexieff Will Be Deposed.

With General Kuropatkin's appointment as commander-in-chief of the army and the presence of the Grand Duke Alexis in the far East, the opinion is strengthened that while Admiral Alexieff may remain as viceroy, the active direction of operations will pass out of his hands.

The action of the commander of the United States gunboat Vicksburg in declining to join the commanders of other foreign warships in a protest against the attack of the Japanese fleet off Chemulpo, which resulted in the sinking of the Russian cruisers Varlag and Korietz, promises to cause much discussion here.

The Novoe Vremya's London correspondent cables that the protest of the British captain against the Japanese attack on the ground that it was a breach of neutrality proved ineffectual because the American commander would not assent.

Newspapers here are laying great stress on the personal note of Mr. Kurino, the Japanese minister at St. Petersburg, to Count Lamsdorff, the Russian foreign minister, on the occasion of the notification of the severance of diplomatic relations, in which Mr. Kurino expressed the hope that the rupture would be of brief duration. Many point to this incident as a point that Russia had no reason to believe that Japan expected to follow up the rupture with actual hostilities.

MAY COMMAND LAND FORCES.

General Kodama Replaced in Japanese Cabinet.

London, Feb. 22.—The announcement that General Kodama has been replaced in the Japanese cabinet by

Mr. Koshikawa is regarded as meaning that General Kodama is about to take command of the Japanese land forces. Kodama, who is Japan's leading general, did splendid work during the Sino-Japanese war.

It is said that Viceroy Alexieff has asked the ministry of marine to send him officers who are not too young and admirals who are not too old, of whom he already has too many. The viceroy has issued proclamations to the Chinese throughout Manchuria seeking to enlist their sympathy in behalf of Russia and their assistance in maintaining the railway intact by representing to them Japan's alleged treacherous methods in beginning the war.

A Port Arthur dispatch received at St. Petersburg reports the Russian cruiser Novik had been repaired and had left her dock.

The Standard's Kieff correspondent hears that the Caucasus and Turkestan armies are to be mobilized. He adds that the rumor is not confirmed officially, but says if it is true it can only be interpreted as a veiled threat against India in certain emergencies.

The correspondent at Tientsin of the Standard reports an attack by 500 Chinese "brigands" on the Russian post at Foochow as probably an attempt to wreck the railway.

BRITAIN SOUNDS RUSSIA.

King Edward Would Offer Mediation If Acceptable to Czar.

Paris, Feb. 22.—The Petit Parisien's London correspondent says that during an interview preceding the departure from London for St. Petersburg Sunday of Count Baken-dorff, the Russian ambassador, Lord Lansdowne, the British foreign minister, intimated to him that King Edward was willing to offer his mediation in the war in the far East, if the czar thought he could accept it.

A dispatch to the Matin from Harbin says half of the Japanese fleet is covering the landing of troops in Korea and the other half is seeking the Vladivostok squadron.

MAPS AND PAPERS STOLEN.

American Adviser of Korean Emperor Forced to Resign.

London, Feb. 22.—According to the Nagasaki correspondent of the Daily Telegraph, while William F. Sands, the emperor of Korea's American adviser, was entertaining officers of the French cruiser Pascal and a number of other friends at dinner in his official residence at Seoul, some geographical, statistical and military maps and papers were stolen. This caused a great scandal and necessitated Mr. Sands' withdrawal.

PANAMA CANAL QUESTION.

Subject Will Continue to Hold Attention of the Senate.

Washington, Feb. 22.—The Panama canal question will continue to hold executive attention of the senate until next Tuesday, when voting will begin on the treaty. It is probable that the doors of the senate chamber will be closed the greater part of the time the treaty is under consideration Monday. Senator Morgan has prepared a number of amendments and if offered they will be presented in executive session. Mr. Morgan will probably speak to some of his amendments, but the prospect is that very few other senators will desire to further discuss the treaty or any amendments to it. All amendments will be voted down. There will be only sixteen or seventeen votes or pairs against the ratification of the convention. Senator Hoar probably will make another speech before the vote is taken.

With the Panama question disposed of the senate will take up appropriation bills, giving precedence to the agricultural bill. There are features in this measure which will arouse opposition and it will probably be debated at some length. The executive, legislative and judicial appropriation bill and the naval appropriation bill will then be considered.

On Washington's birthday the senate will listen to Washington's farewell address by Senator Heyburn of Idaho.

NAVAL BILL IN THE HOUSE.

Training Station on Great Lakes Will Probably Cause a Contest.

Washington, Feb. 22.—The house has the house naval bill under debate and at the proper time it is probable that a rule will be brought in making the item in the bill providing for a training station on the Great Lakes in order. It is expected that a contest will ensue over the location of the station.

Notice has been given by Mr. Hitchcock (Neb.) that he will propose an amendment to the bill providing for the construction of a government armor plate factory.

The Indian and the District appropriation bills will follow the naval bill and some of them may be passed this week.

At the first lull during the week the bill providing for a committee to investigate and report on the shipping industry may be called up under a rule limiting debate to a few hours.

Following the Indian and District bills will come the postoffice appropriation bill. If all the appropriation bills are out of the way by Friday, private pension bills will have a chance.

Mr. Williams, the minority leader, served notice Saturday that he would endeavor to secure the reading Monday of Washington's farewell address and then an immediate adjournment.

Kills His Wife and Suicides.

Mayville, Ky., Feb. 22.—Garret Breckenridge Sunday killed his wife and then himself, both colored. He had previously killed three men on account of jealousy of his wife.

DUARTE BOMBARDED

TWO UNITED STATES WARSHIPS

SHELL POSITION OF DOMINICAN INSURGENTS.

MARINES IN LAND BATTLE

AMERICANS DEFEAT REBELS FOR

FIRING UPON THE CLYDE LINER NEW YORK.

Paris, Feb. 22.—A dispatch from San Domingo says that the United States cruiser Columbia and the training ship Hartford have bombarded Duarte, which is occupied by insurgents.

DECISIVE BATTLE FOUGHT.

Dominican Government Troops Defeat Insurgents.

Washington, Feb. 22.—Late last night the state department received a cablegram from Minister Powell, dated at San Domingo, Feb. 16, saying:

"A decisive battle has been fought between the government forces and the insurgents. It extended over two days and resulted in a victory for the government. The siege has been raised and the insurgents are in retreat."

FIRE UPON AMERICAN SHIP.

Dominican Insurgents Defeated by United States Marines.

San Domingo, Feb. 22.—The Clyde line steamer New York arrived here Feb. 11, conveyed by the United States cruiser Newark, and Minister Powell instructed the captain of the vessel to discharge his cargo at the wharf. An agreement had been made by Minister Powell and Commander Miller with the insurgents and the government that neither party should fire while the New York was at the wharf discharging. The government kept this agreement, but the insurgents fired on the steamer and on a launch from the cruiser Columbia, which was entering the river. Eight rifle shots damaged the New York's woodwork, endangering the lives of passengers and crew.

The commander of the United States warship then decided to shell Pajarito, near this city, the place occupied by the insurgents, and to land 300 marines with the object of punishing the insurgents for insulting the United States flag and damaging an American steamer.

At 2:30 p. m. the Newark approached and opened fire, discharging ten shells. The insurgents

Fired Upon the Marines

while they were landing, wounding some of them. The marines returned the fire and the insurgents ran away.

The marines landed were divided into two columns and searched the houses, woods and bushes. They then followed the insurgents, who fired while the marines were reloading.

The marines remained stationed at Pajarito until Feb. 12, when they withdrew. During the occupation the insurgents withdrew to a great distance without further resistance. The shells from the cruiser Newark caused some damage in Pajarito and the surrounding country.

A protest signed by prominent citizens has been distributed to the public against the action of the United States warship, which is described as an insolent outrage against the liberty of the republic and a disgrace to the national dignity.

President Morales arrived here Feb. 12. The day passed quietly but that evening firing began at the west gate of the city.

ONE AMERICAN INJURED.

Accidental Discharge of a Rifle Caused the Only Casualty.

Washington, Feb. 22.—A belated dispatch, dated Feb. 12, from Captain J. M. Miller of the United States cruiser Columbia, which with the Newark, is in San Domingo waters, brings official confirmation of the press dispatches regarding the bombardment of the insurgents by the war

vessels of a position near the capital city, the landing of marines and blue-jackets to punish the revolutionists and their subsequent re-embarkation. According to Captain Miller's dispatch only one American was injured, and that by the accidental discharge of his rifle.

It is authoritatively stated that the question of the annexation of San Domingo to the United States never has received the slightest consideration on the part of the administration.

KILLS HIS WIFE AND HIMSELF.

Kentucky Farmer Winds Up a Spree With Murder.

Mayville, Ky., Feb. 22.—J. B. Bramel, a farmer, twelve miles from this city, reached home very intoxicated late at night, ran his brother away from the house with a Winchester and afterward killed his wife, driving his children out into the cold. While in his delirium Bramel set his house on fire and perished in the flames. Bramel had previously driven his wife and children out of the house during a spree.

One Man Killed.

Duluth, Feb. 22.—One man was killed and others are reported missing as a result of an explosion in the stripping cut at the Monroe mine, eight miles east of Hibbing, controlled and operated by the steel corporation. The explosion was due to a delayed fuse ahead of the steam shovel work.

Passenger Train Wrecked.

Chicago, Feb. 22.—A passenger train on a branch of the Big Four railroad was wrecked early Sunday, near Waupun, Ill., resulting in the death of one passenger and the injury of five others, the names of whom could not be learned. A broken frog is said to have caused the wreck.

TELEGRAPHIC BREVITIES.

The Mexican sugar trust has failed and lost about \$630,000.

Dr. Jamieson has succeeded in completing a cabinet for Cape Colony.

A dozen United States warships are at Guantanamo, Cuba, preparing for the maneuvers.

Commander William P. Randall, U. S. N., retired, died at New Bedford, Mass., Sunday, aged seventy-one years.

Owen F. Fawcett, the veteran comedian, died Sunday night of Bright's disease at Flat Rock, Mich., aged sixty-six.

A six-story building on East Ninety-ninth street, New York city, was destroyed by fire Sunday night, entailing a loss of \$75,000.

The manufacturing plant of the Jamestown Furniture company at Jamestown, N. Y., was destroyed by fire Sunday. Loss, \$50,000.

The life and work of the late Senator M. A. Hanna formed the subject of eulogies in many church sermons throughout the country Sunday.

The British steamer Kentigern, valued at \$120,000, was abandoned at sea Feb. 16 in a sinking condition. All on board were taken off by the German steamer Albano.

John Petra, an Italian, was shot four times and probably fatally wounded by Pietro Vergotti, another Italian, in St. Paul Saturday night, as a result of jealousy.

Louis T. Dickinson of New York city was drowned Sunday in trying to pull A. G. Allen of Chicago out of Cayuga lake, in New York, upon which the men were skating.

Robert P. Skinner has reported to the state department that he negotiated a favored nation treaty with Abyssinia granting special privileges to American trade in that country.

Captain Samuel Neff, aged sixty-two years, died Sunday from pneumonia at Milwaukee. Captain Neff was owner of a lumber carrying fleet and was well known in marine circles.

Samuel C. Hazard, the ex-army officer and graduate of West Point, convicted of bigamy at Minneapolis, was Saturday sentenced to two years in the state prison by Judge Brooks. A stay of fifteen days was granted.

STATEHOOD OR INDEPENDENCE.

Federal Assembly of Porto Rico Makes Demands.

San Juan, Porto Rico, Feb. 22.—The federal assembly, by a vote of 60 to 15, demanded that Porto Rico be admitted to statehood or that the island be granted independence.

Believed to Be From Attempted Approach of Torpedo Boats.

Several of the Mikado's Men Killed in Chemulpo Fight.

St. Petersburg, Feb. 22.—The official account of the battle of Chemulpo given by M. Pavloff, Russian minister of Korea, who left Seoul for China, Feb. 13, is practically identical with the report previously cabled. M. Pavloff says that the Japanese captain of the cruiser Takachio sank his vessel the night following the battle and that the Russian fire silenced the Asama's fore barrette and wrecked her bridge. The Asama transferred eighty killed or wounded to a transport.

The collision was presumably between reconnoitering parties. A general engagement is not anticipated immediately.

FAITH IN KUROPATKIN.

Russians Believe He Will Lead Them to Victory.

St. Petersburg, Feb. 22.—The appointment of General Kuropatkin, who was Saturday relieved of his functions as minister of war, to the chief command of the Russian army in the far East, was gazetted Sunday morning.

With the possible exception of General Dragomiroff, formerly governor general of Kieff, and later member of the council of state, General Kuropatkin is the most popular man in the Russian army. As a bluff old soldier who has fought his way up from the bottom to be minister of war, he is the idol of the enlisted men. There is never a dull moment in his company for he intermingles the humorous incidents of his campaign with tales of the self-sacrifice of the men whom he led with Skebeleff over the parched wastes of Gek Tepe or over the icy slopes of Plevna.

The appointment of General Kuropatkin to direct command in the field has been received with enthusiasm and his leadership inspires complete confidence that there will be no mistake and that Russian arms will be carried to success on land.

General Kuropatkin will be accompanied to the front by the Grand Dukes Boris, Alexis, Nicholas and Michael Nikolaievich.

The emperor and the empress gave a luncheon Sunday to General Kuropatkin and the grand dukes at the Alexandra palace. Tsarsko-Selo, and bade them farewell.

The exact mission of Grand Duke Alexis is unknown but it is undoubtedly an important one, as he has been in supreme command of the Russian navy as president of the board of admiralty, taking an active part in the negotiations preceding hostilities. He presided at the special council which prepared Russia's undelivered reply to Japan.

Alexieff Will Be Deposed.

With General Kuropatkin's appointment as commander-in-chief of the army and the presence of the Grand Duke Alexis in the far East, the opinion is strengthened that while Admiral Alexieff may remain as viceroy, the active direction of operations will pass out of his hands.

The action of the commander of the United States gunboat Vicksburg in declining to join the commanders of other foreign warships in a protest against the attack of the Japanese fleet off Chemulpo, which resulted in the sinking of the Russian cruisers Varang and Korietz, promises to cause much discussion here.

The Novoe Vremya's London correspondent cables that the protest of the British captain against the Japanese attack on the ground that it was a breach of neutrality proved ineffectual because the American commander would not assent.

Newspapers here are laying great stress on the personal note of Mr. Kurino, the Japanese minister at St. Petersburg, to Count Lamedorff, the Russian foreign minister, on the occasion of the notification of the severance of diplomatic relations, in which Mr. Kurino expressed the hope that the rupture would be of brief duration. Many point to this incident as a point that Russia had no reason to believe that Japan expected to follow up the rupture with actual hostilities.

MAY COMMAND LAND FORCES.

General Kodama Replaced in Japanese Cabinet.

London, Feb. 22.—The announcement that General Kodama has been replaced in the Japanese cabinet by

Mr. Koshikawa is regarded as meaning that General Kodama is about to take command of the Japanese land forces. Kodama, who is Japan's leading general, did splendid work during the Chino-Japanese war.

It is said that Viceroy Alexieff has asked the ministry of marine to send him officers who are not too young and admirals who are not too old, of whom he already has too many. The viceroy has issued proclamations to the Chinese throughout Manchuria seeking to enlist their sympathy in behalf of Russia and their assistance in maintaining the railway intact by representing to them Japan's alleged treacherous methods in beginning the war.

A Port Arthur dispatch received at St. Petersburg reports the Russian cruiser Novik had been repaired and had left her dock.

The Standard's Kieff correspondent hears that the Caucasus and Turkestan armies are to be mobilized. He adds that the rumor is not confirmed officially, but says if it is true it can only be interpreted as a veiled threat against India in certain emergencies.

The correspondent at Tientsin of the Standard reports an attack by 500 Chinese "brigands" on the Russian post at Foochow as probably an attempt to wreck the railway.

BRITAIN SOUNDS RUSSIA.

King Edward Would Offer Mediation if Acceptable to Czar.

Paris, Feb. 22.—The Petit Parisien's London correspondent says that during an interview preceding the departure from London for St. Petersburg Sunday of Count Baken-dorff, the Russian ambassador, Lord Lansdowne, the British foreign minister, intimated to him that King Edward was willing to offer his mediation in the war in the far East, if the czar thought he could accept it.

A dispatch to the Matin from Harbin says half of the Japanese fleet is covering the landing of troops in Korea and the other half is seeking the Vladivostok squadron.

MAPS AND PAPERS STOLEN.

American Adviser of Korean Emperor Forced to Resign.

London, Feb. 22.—According to the Nagasaki correspondent of the Daily Telegraph, while William F. Sands, the emperor of Korea's American adviser, was entertaining officers of the French cruiser Pascal and a number of other friends at dinner in his official residence at Seoul, some geographical, statistical and military maps and papers were stolen. This caused a great scandal and necessitated Mr. Sands' withdrawal.

PANAMA CANAL QUESTION.

Subject Will Continue to Hold Attention of the Senate.

Washington, Feb. 22.—The Panama canal question will continue to hold executive attention of the senate until next Tuesday, when voting will begin on the treaty. It is probable that the doors of the senate chamber will be closed the greater part of the time the treaty is under consideration Monday. Senator Morgan has prepared a number of amendments and if offered they will be presented in executive session. Mr. Morgan will probably speak to some of his amendments, but the prospect is that very few other senators will desire to further discuss the treaty or any amendments to it. All amendments will be voted down. There will be only sixteen or seventeen votes or pairs against the ratification of the convention. Senator Hoar probably will make another speech before the vote is taken.

With the Panama question disposed of the senate will take up appropriation bills, giving precedence to the agricultural bill. There are features in this measure which will arouse opposition and it will probably be debated at some length. The executive, legislative and judicial appropriation bill and the naval appropriation bill will then be considered.

On Washington's birthday the senate will listen to Washington's farewell address by Senator Heyburn of Idaho.

NAVAL BILL IN THE HOUSE.

Training Station on Great Lakes Will Probably Cause a Contest.

Washington, Feb. 22.—The house has the naval bill under debate and at the proper time it is probable that a rule will be brought in making the item in the bill providing for a training station on the Great Lakes in order. It is expected that a contest will ensue over the location of the station.

Notice has been given by Mr. Hitchcock (Neb.) that he will propose an amendment to the bill providing for the construction of a government armor plate factory.

The Indian and the District appropriation bills will follow the naval bill and some of them may be passed this week.

At the first lull during the week the bill providing for a committee to investigate and report on the shipping industry may be called up under a rule limiting debate to a few hours.

Following the Indian and District bills will come the postoffice appropriation bill. If all the appropriation bills are out of the way by Friday, private pension bills will have a chance.

Mr. Williams, the minority leader, served notice Saturday that he would endeavor to secure the reading Monday of Washington's farewell address and then an immediate adjournment.

Kills His Wife and Suicides.

Maysville, Ky., Feb. 22.—Garret Breckenridge Sunday killed his wife and then himself, both colored. He had previously killed three men on account of jealousy for his wife.

DUARTE BOMBARDED

TWO UNITED STATES WARSHIPS

SHELL POSITION OF DOMINICAN INSURGENTS.

MARINES IN LAND BATTLE

AMERICANS DEFEAT REBELS FOR

FIRING UPON THE CLYDE LINER NEW YORK.

Paris, Feb. 22.—A dispatch from San Domingo says that the United States cruiser Columbia and the training ship Hartford have bombarded Duarte, which is occupied by insurgents.

DECISIVE BATTLE FOUGHT.

Dominican Government Troops Defeat Insurgents.

Washington, Feb. 22.—Late last night the state department received a cablegram from Minister Powell, dated at San Domingo, Feb. 16, saying:

"A decisive battle has been fought between the government forces and the insurgents. It extended over two days and resulted in a victory for the government. The siege has been raised and the insurgents are in retreat."

FIRE UPON AMERICAN SHIP.

Dominican Insurgents Defeated by United States Marines.

San Domingo, Feb. 22.—The Clyde line steamer New York arrived here Feb. 11, conveyed by the United States cruiser Newark, and Minister Powell instructed the captain of the vessel to discharge his cargo at the wharf. An agreement had been made by Minister Powell and Commander Miller with the insurgents and the government that neither party should fire while the New York was at the wharf discharging. The government kept this agreement, but the insurgents fired on the steamer and on a launch from the cruiser Columbia, which was entering the river. Eight rifle shots damaged the New York's woodwork, endangering the lives of passengers and crew.

The commander of the United States warship then decided to shell Pajarito, near this city, the place occupied by the insurgents, and to land 300 marines with the object of punishing the insurgents for insulting the United States flag and damaging an American steamer.

At 2:30 p. m. the Newark approached and opened fire, discharging ten shells. The insurgents

Fired Upon the Marines

while they were landing, wounding some of them. The marines returned the fire and the insurgents ran away. The marines landed and searched the houses, woods and bushes. They then followed the insurgents, who fired while the marines were reloading.

The marines remained stationed at Pajarito until Feb. 12, when they withdrew. During the occupation the insurgents withdrew to a great distance without further resistance. The shells from the cruiser Newark caused some damage in Pajarito and the surrounding country.

A protest signed by prominent citizens has been distributed to the public against the action of the United States warship, which is described as an insolent outrage against the liberty of the republic and a disgrace to the national dignity.

President Morales arrived here Feb. 12. The day passed quietly but that evening firing began at the west gate of the city.

ONE AMERICAN INJURED.

Accidental Discharge of a Rifle Caused the Only Casualty.

Washington, Feb. 22.—A belated dispatch, dated Feb. 12, from Captain J. M. Miller of the United States cruiser Columbia, which with the Newark, is in San Dominican waters, brings official confirmation of the bombardment of the insurgents by the war

vessels of a position near the capital city, the landing of marines and blue-jackets to punish the revolutionists and their subsequent re-embarkation. According to Captain Miller's dispatch only one American was injured, and that by the accidental discharge of his rifle.

It is authoritatively stated that the question of the annexation of San Domingo to the United States never has received the slightest consideration on the part of the administration.

KILLS HIS WIFE AND HIMSELF.

Kentucky Farmer Winds Up a Spree With Murder.

Maysville, Ky., Feb. 22.—J. B. Bramel, a farmer, twelve miles from this city, reached home very intoxicated late at night, ran his brother away from the house with a Winchester and afterward killed his wife, driving his children out into the cold. While in his delirium Bramel set his house on fire and perished in the flames. Bramel had previously driven his wife and children out of the house during a spree.

One Man Killed.

Duluth, Feb. 22.—One man was killed and others are reported missing as a result of an explosion in the stripping cut at the Monroe mine, eight miles east of Hibbing, controlled and operated by the steel corporation. The explosion was due to a delayed fuse ahead of the steam shovel work.

Passenger Train Wrecked.

Chicago, Feb. 22.—A passenger train on a branch of the Big Four railroad was wrecked early Sunday, near Waupun, Ill., resulting in the death of one passenger and the injury of five others, the names of whom could not be learned. A broken frog is said to have caused the wreck.

GLOVES IN EARLY DAYS.

They Were Often Made to Represent the Man Who Wore Them.

In the early days everything was not regulated for the people, as it is now, by the government and the law courts. Europe was still young then, and people had rough and ready means of dealing with one another, of buying and selling or giving goods and property and settling disputes. A glove, as it was very close indeed to a man's hand, came in course of time to be looked upon as taking the place of the hand itself, and sometimes took the man's place and was made to represent him.

For example, to open a fair it was necessary then to have the consent and protection of the great lord in whose country it was going to be held. Those who wished to open the fair would come to the nobleman and petition him to be present. He might be very busy, or bored at the idea of having to go, yet he would know that it must be opened or his people would be discontented. So he would say to the leaders of the people: "No, my trusty fellows, I can't open the fair in person, but I will send my glove to do it. You all know my glove. Nobody has one like it in the country. It is the one my lady mother embroidered for me in colored silks and silver wire, and it has a deep violet fringe. You can hang it above the entrance of your fair grounds as a sign that you are meeting with my permission. If any one disputes your right or touches his master's glove I will attend to him; that's all!" So the glove would travel in state to open the fair.—St. Nicholas.

Woman Dead and Child Dying.

Mrs. M. G. Blake of West Brainerd, says: "I suffered a great deal from inflammation of the kidneys and I grew worse in place of better. My back in the region of the kidneys was sore, lame and hurt me very much, an aching pain being ever present. The kidney secretions were dark in color and on standing deposited much sediment. When Doan's Kidney Pills were advertised I sent my son for a box. I was a little afraid I would not be able to use them for I cannot take some kinds of medicine. I found, however, that they were mild in their operation and did not produce any bad effects. A MOUSE THAT 'SINGS.'

Man Who Caught It Says It Warbles Like a Canary.

Singing mice are rare, but a correspondent writes from Yorkshire asking whether we can give him any information about a specimen he captured.

He adds, "It has been warbling just like a canary for the last month in our workshop, and although I have it in a cage it still continues to sing."

That mice do occasionally "sing" is undeniable. Some observers say that their "song" is softer, sweeter and more delicate than that of the canary, which one can believe quite easily. Others go so far as to compare it to that of a warbler or even a piping bullfinch. But the question as to why they lift up their voices in this tuneful manner still remains to be answered.

Three explanations have been suggested:

First.—That all mice are potential vocalists and can learn to sing, by imitation, from singing birds.

Second.—That many mice possess an exceptional talent for mimicry, together with a keen sense of the ludicrous.

Third.—That some mice are subject to bronchitis and that the so called "song" is only the wheezing of rodents which suffer from the distressing complaint.

A certain amount of color is given to the last theory by the fact that a mouse which was caught by the neck in a wire trap not sufficiently strong to kill it "sang" while its throat was under compression, but never again during its subsequent life as a captive.—London Mail.

JADE AS MEDICINE.

It Is Used in Various Ways For Many Diseases in China.

Everything in China of any rarity whatever is certain to be dragged into the pharmacopoeia of the Chinese physician. Jade is no exception to the rule. It may be swallowed as a powder or in little pieces the size of hemp seed for various stomachic complaints. Even poekmarks and scars may be obliterated by being daily rubbed with a piece of pure jade. It is also considered to be of a moist nature, and we read of an imperial favorite of the eighth century who was cured of excessive thirst by holding a fish shaped jade in her mouth. And so when the tomb of the great commander, Ts'ao Ts'ao, third century, A. D., was opened 200 years after his death, among the usual objects found in such circumstances was a large silver bowl full of water. That the water had not dried up was accounted for by the presence in the bowl of a jade boy three feet in height.

Jade is chiefly brought from the K'un-lun, or Koulun, range, between the desert of Gobi and Tibet; from Khoten or Ichi in Yarkand, and from Lan-tien, on the Belurtagh mountains, still farther to the west. In the tenth century, A. D., the latter was actually known as the Jade hills district, though it does not appear that any jade has ever been found there.—Professor Herbert A. Giles in Nineteenth Century.

St. Patrick's Purgatory.

Medieval songs and legends, which are rich in all sorts of mythical and fantastical lore, locate the entrance to St. Patrick's famous "purgatory" on the island of Lough Derg, Ireland. The opening itself was through a cave, the existence of which was revealed to the saint by Christ, who informed the good Patrick that any one with the moral courage to go down into the cavern would be saved the pangs of the real "purgatory" after death. Patrick built a monastery at the entrance of his earthly "purgatory" and secured the way to the pit by an iron gate provided with strong chains and locks of peculiar and intricate workmanship. Lough Derg, next to Jerusalem, was the most celebrated spot on earth during the middle ages. Thousands visited "purgatory" every year, and the whole island had the appearance of a populous city.

Reversible Snakes in India.

A snake not often heard of, at least in America, is the liver colored snake with two heads, or perhaps they should be called mouths, though it does not have two mouths at the same time. They are reversible mouths, occupying the opposite end every six months. It lies with the two ends crossed on each other, as with folded hands. Every six months the change of the seasons reverses the functions of the two ends, the head becoming the tail and the tail becoming the head. The mouth at one end heals or closes up all but a small opening, while the opposite end becomes the mouth for the next six months.

Breton Children.

The Breton children are pious, superstitious, stolid, strong, patient and very thorough. The girls are intelligent and interesting. They are the mainstays of the family. A child of ten undertakes to superintend both household work and the farm. The boys are more or less stupid, handsome, bronze faced country urchins. Bee culture seems to be the favorite occupation of the Breton boy. The insects will come at his bidding and will even cover him from head to foot without stinging.

"I couldn't," replied he.
After thinking it over she smiled and told him she could make the same old dress do another season.—Houston Post.

Three explanations have been suggested:

First.—That all mice are potential vocalists and can learn to sing, by imitation, from singing birds.

Second.—That many mice possess an exceptional talent for mimicry, together with a keen sense of the ludicrous.

Third.—That some mice are subject to bronchitis and that the so called "song" is only the wheezing of rodents which suffer from the distressing complaint.

A certain amount of color is given to the last theory by the fact that a mouse which was caught by the neck in a wire trap not sufficiently strong to kill it "sang" while its throat was under compression, but never again during its subsequent life as a captive.—London Mail.

JADE AS MEDICINE.

It Is Used In Various Ways For Many Diseases In China.

Everything in China of any rarity whatever is certain to be dragged into the pharmacopoeia of the Chinese physician. Jade is no exception to the rule. It may be swallowed as a powder or in little pieces the size of hemp seed for various stomachic complaints. Even poxmarks and scars may be obliterated by being daily rubbed with a piece of pure jade. It is also considered to be of a moist nature, and we read of an imperial favorite of the eighth century who was cured of excessive thirst by holding a fish shaped jade in her mouth. And so when the tomb of the great commander, Ts'ao Ts'ao, third century, A. D., was opened 200 years after his death, among the usual objects found in such circumstances was a large silver bowl full of water. That the water had not dried up was accounted for by the presence in the bowl of a jade boy three feet in height.

Jade is chiefly brought from the K'un-lun, or Koulun, range, between the desert of Gobi and Tibet; from Khoten or Ichi in Yarkand, and from Lan-tien, on the Belurtagh mountains, still farther to the west. In the tenth century, A. D., the latter was actually known as the Jade hills district, though it does not appear that any jade has ever been found there.—Professor Herbert A. Giles in Nineteenth Century.

St. Patrick's Purgatory.

Medieval songs and legends, which are rich in all sorts of mythical and fantastical lore, locate the entrance to St. Patrick's famous "purgatory" on the island of Lough Derg, Ireland. The opening itself was through a cave, the existence of which was revealed to the saint by Christ, who informed the good Patrick that any one with the moral courage to go down into the cavern would be saved the pangs of the real "purgatory" after death. Patrick built a monastery at the entrance of his earthly "purgatory" and secured the way to the pit by an iron gate provided with strong chains and locks of peculiar and intricate workmanship. Lough Derg, next to Jerusalem, was the most celebrated spot on earth during the middle ages. Thousands visited "purgatory" every year, and the whole island had the appearance of a populous city.

Reversible Snakes In India.

A snake not often heard of, at least in America, is the liver colored snake with two heads, or perhaps they should be called mouths, though it does not have two mouths at the same time. They are reversible mouths, occupying the opposite end every six months. It lies with the two ends crossed on each other, as with folded hands. Every six months the change of the seasons reverses the functions of the two ends, the head becoming the tail and the tail becoming the head. The mouth at one end heals or closes up all but a small opening, while the opposite end becomes the mouth for the next six months.

Breton Children.

The Breton children are pious, superstitious, stolid, strong, patient and very thorough. The girls are intelligent and interesting. They are the mainstays of the family. A child of ten undertakes to superintend both household work and the farm. The boys are more or less stupid, handsome, bronze faced country urchins. Bee culture seems to be the favorite occupation of the Breton boy. The insects will come at his bidding and will even cover him from head to foot without stinging.

Turning Away Wrath.

"I don't believe you love me any more," pouted she.

"I couldn't," replied he.

After thinking it over she smiled and told him she could make the same old dress do another season.—Houston Post.

Could Not Guarantee Them.

"Have you any eggs?" inquired the customer.

"Yes, sir," said the waiter. "I can bring you some eggs, but I want you to remember that this is a ten cent lunch counter."—Chicago Tribune.

BAD DAY ON RAILROADS

No. 12, the Duluth Passenger,
Crippled Up Near Pillager
Yesterday Afternoon.

A RATHER EXPENSIVE WRECK

Caboose of Freight Standing in Yards Burned—Another En- gine Broke Down.

Yesterday seemed to be a Jonah for the Northern Pacific in the vicinity of Brainerd. There was no end of trouble and while no lives were lost there were some rather disastrous wrecks resulting in the loss of considerable property. The worst accident occurred to No. 12 near Pillager shortly after 3 o'clock yesterday afternoon. Both sidings on the engine broke and before the train could be stopped all kinds of damage had been done.

The broken rod on the north side of the engine was planted into the ground, just enough off the end protruding to catch all the boxes on the wheels of the tender, the baggage car and the smoker. All three cars were incapacitated. The two big rear wheels, one on either side of the engine, were cracked square in two and the engine was otherwise quite badly smashed up.

After straightening things out Engineer Scobie, who was at the throttle, managed to pull the train slowly into Brainerd, arriving here at about 5:30 o'clock. There was nothing but the rear coach of the train in shape to be pulled into Duluth, so after another engine could be steamed up she pulled out with the lone coach carrying the few passengers who had expected to get to Duluth for their dinner last evening, but who did not arrive any too soon for a midnight luncheon. Conductor White was in charge of the train.

The sight of a burning caboose attached to a Northern Pacific train greeted the eyes of pedestrians in the vicinity of the N. P. yards yesterday morning. The caboose was attached to an extra and was one that belonged on the south end. Nothing but the trucks were saved. The fire department was not called out, and those who saw the fire wondered that some assistance was not asked. It is presumed the fire caught from an overheated stove.

Another freight engine was put out of business yesterday morning. It was bound south and had not made over ten miles from Brainerd when one of the cylinders blew out. Another engine had to go out and yank the train back to town.

B. Griffith, of Duluth.

Mr. Milton B. Griffith will appear in this city in a song recital on Wednesday evening under the auspices of the Ladies Musical club. Mr. Griffith is possessor of a pure mellow tenor voice and has a reputation that is almost national. The St. Louis Globe-Democrat in speaking of this artist's work says:

"The vocal part of the programme covered a wide range of composition and presented many difficulties to the singer. It began with the beautiful aria 'Celeste Aida,' from Aida, by Verdi. Mr. Griffith possesses a voice of good quality and considerable range. * * * Mr. Griffith's rendering of the Nevin song was particularly satisfactory. The sympathetic quality of his voice was combined with much musical art and secured for him hearty appreciation from the audience. The song by Mr. Kroeger was interesting as a composition, and in its rendering Mr. Griffith did his best work of the evening."

The following program will be rendered by Mr. Griffith:

A RELIABLE MEDICINE

A Reporter of the Dispatch Inter-
views Our Local Druggists,
H. P. Dunn & Co.

The Interview of Interest to Every Person
In Brainerd.

So many patent medicines and advertised cures are now offered to the public that our readers should be glad to know the opinion of a man who has spent years in handling them, and profit by his advice.

Said Mr. Dunn, of H. P. Dunn & Co., "After having sold drugs and all kinds of medicines for so many years, naturally we have learned something about them, their value, and power to cure.

There is no one medicine that will cure everything, but this we do know, that if the people of Brainerd realized the wonderful curative and strength-creating power of Vinol, we would not have clerks enough in our store to put up the orders for it."

Continued Mr. Dunn, "You see Vinol is not a patent medicine, and it actually does contain every one of the fifty odd medicinal curatives taken from the fresh cods' livers, with other vitalizing ingredients. It contains no poisonous or nauseating oil, and you know just what you are taking. Vinol has wonderful life-giving properties; it tones up and invigorates every organ of the body to do its work, and we know it will make rich, red blood, build up the depleted system and create strength.

"When I tell you that we have never sold in our store such a valuable remedy as Vinol for the following ailments, and that if it fails to accomplish what we say it will, we will refund your money, it will show our faith in its wonderful curative and vitalizing powers.

"It will build up run-down, tired, debilitated people. It will make the weak and sickly strong and well. It will make flesh for thin people. It will increase the appetite. It will cure nervousness, irritability and sleeplessness. It will cure stomach troubles, dyspepsia and indigestion. It will make rich, red blood. It will make weak, puny, ailing children strong and robust. It is the greatest strengthener and body builder in the world for old people. It is a great strengthener for weak women. It will positively cure chronic coughs and colds. It cures bronchitis. It makes weak lungs strong and is of untold value in consumption and all wasting diseases. For the convalescent it has no equal as a strength maker.

"We cannot make a stronger statement and can only ask such people in Brainerd to try Vinol on our guarantee." H. P. Dunn & Co., Druggists.

MUSIC AND DRAMA.

THE ELKS' MINSTRELS TONIGHT.

The last rehearsal for the Elks' minstrels which will be put on tonight at the Brainerd opera house was held yesterday afternoon at the play house and everything went off like the click of a clock, and Brainerd people will be given a genuine treat tonight with many happy surprises. The parts are all well taken and there will not be a lag or a drag in the whole performance. The second part is chuck full of good things and the first part teams with an effulgence of song and dozens of local hits. The setting for the first part is also unique and up-to-date and, in fact, there is something of interest about the whole show. Seats are selling fast and the few that will be left by tonight will be quickly taken.

Have you a full, heavy, mean feeling in your stomach after eating, feel lazy, tired and weak? Hollister's Rocky Mountain Tea will make you well, keeps you well. 35 cents. H. P. Dunn & Co.

A COLLEGE FOR DRESSMAKING

And Ladies Tailoring For Brainerd Soon
to Open.

With the co-operation and assistance of the citizens we will establish here in Brainerd an institution of learning which from the standpoint of usefulness will be second to none in this progressive community, namely a college in which the art of garment cutting and making, ladies' tailoring a specialty, will be taught; an institution where ladies, young and old, may assemble and there be taught by competent lady teachers how to cut and make any garment belonging to a lady's wardrobe regardless of length of time or number of lessons. Our motto is thoroughness. The system taught in this college is a graduated scale of tailor system, and cuts accurately all skirts, trimmings and draperies as easily as waist linings, and we would not have you think of it as a chart or paper model. Examine for yourself.

Every mother knows the difficulty she has encountered while trying to make garments from paper patterns and should impress upon her daughters the absolute necessity of such a course. The work in the college will not interfere with any other duties, and can be done during your leisure hours, when you might be occupied with something that would be of no practical use to you. Below will be found a partial list of what is taught in the college:

Our drafting department includes lessons in—
Taking measures,
Cutting plain waists,
Tight fitting waists with bias dart,
Plain sleeves,
Drafting of all kinds of sleeves,
Stout form waists with one or two under-arm pieces,
Seamless waists,
Double-breasted or bias fronts,
Cutting evening costumes,
Tight fitting Princess,
Single or double-breasted coat,
Any kind of a wrap,
Cutting tailor gowns,
Cutting flared skirts,
Any style of skirt from 2 to 13 gore,
Reproducing styles from any magazine or fashion plate.

Our dressmaking department includes lessons in—
Basting from true principles,
Joining the different parts,
Trying on waists,
Finishing the inside of a waist,
Pressing and boning waists,
New process of feather boning,
Trimming and draping a waist,
Putting wraps, cloaks, jackets, etc., together and trimming sleeves,
Making all kinds of sleeves,
Putting in sleeves,
Making and hanging skirts,
Trimming skirts,
Making tailor gowns complete,
Putting on collars and revers.

The managers of this work will be in Brainerd about Feb 29 and will proceed to organize the class, and those who wish to have this plan of work more fully explained will please drop us a card in the postoffice and some of our representatives will call at your home. Respectfully,
Clemens & Collin.

SICKROOM TACTICS.

A Successful Nurse Must Be Gentle,
Patient and Tactful.

The proper mental atmosphere created in a sickroom is often as important as the remedies given. A nurse should be in touch with her patient—that is, she should be sympathetic and not allow irritability and whims to upset her equanimity. The nurse who can create an atmosphere of repose, who can humor without indulging her patient in all the idiosyncrasies of sick people, has won half the battle. An unsympathetic, impatient nurse will do more to hinder recovery than the lack of remedies. It is not acts and words alone that help or hinder; her very thoughts are as potent as her general conduct, and the sensitive patient will be influenced for good or ill if the nurse were dumb. She should at all times maintain a positive uplifting mental attitude and remember that the patient's irritability or melancholia is justified by her physical condition and is not perverseness.

Gentleness, patience and, above all, tact are the requisites for good and intelligent nursing, and the nurse who lacks these qualities has indeed missed her calling. Patients have often failed to improve simply because they did not fancy their nurse. A nurse must be likable and make herself liked, and it takes only plain tact and a little circumspection to ingratiate herself with the most uninteresting of patients.

THE GYPSIES.

Their Tribes Existed in Europe
From Immemorial Times.

Gypsies were found in England about 1514, according to "A Dialogue of Sir Thomas More" (1529), but the exact year of their arrival is unknown. They were present in Scotland in 1505, and possibly they were the "Saracens" whose depredations in that country prior to 1400 are on record.

Bataillard and other authors believe that gypsies existed in Europe from immemorial times, for they find no account of their crossing the Bosphorus, and no record is known to exist of their passage to England or Scotland.

They were better received in these countries than in any other, but so early as 1531 an act was passed requiring the Egyptians to quit the realm under pain of death, a similar edict being issued in Scotland in 1541 and at varying periods in most of the European states.

Transportation across the seas was among the milder means adopted and probably was the cause of much further dispersion of the tribes. Under Henry VIII, gypsies were shipped from England to Norway or France, and from France, so recently as 1802, they were deported to Africa.

UNTIMELY CHEERS.

The Misplaced Enthusiasm of an Ex-
Corpse in Ireland.

It was the rule in Ireland at one time that after an execution the body should hang an hour, but the sheriff, from mistaken lenity, would on some occasions look away after the prisoner had been turned off, while the friends of the culprit would hold up their companion by the waistband of the trousers so that the rope would not press upon his throat.

When the hour was expired the deceased was put into a cart, which was driven at a gallop along the stony road. The jolting generally brought the prisoner to. One such recovery was so complete that the resuscitated man sat up in the coffin and gave three cheers.

One of his friends was so shocked at this indecent conduct that he hit the ex-corpse on the head with his shillalah and finished him. The question then arose whether the assailant could be tried for murder, but it was ruled that no man could be successfully charged with the murder of a man who was already dead in law.—Pearson's Weekly.

BULGARIA NOT SEEKING WAR.

Has No Intention of Starting Hostili-
ties With Turkey.

Paris, Feb. 22.—M. Zolotovitz, the Bulgarian agent in Paris, made the following statement:

"I can give the most formal assurances that Bulgaria has more than ever resolved to do nothing to compromise the peace."

M. Zolotovitz further said Bulgaria was satisfied with the plan of reforms in Macedonia and would not seek to profit by the crisis in the far East.

Bulgaria sympathizes with Russia, but the military activity of the Turks is such a grave menace that Bulgaria must be prepared for war.

It is understood the powers are considering simultaneous representations to Constantinople and Sofia to compel a limitation to armament.

The Turkish embassy is authorized to state categorically that the Ottoman government has not given any orders for the mobilization of troops.

Under Rush Orders.

Philadelphia, Feb. 22.—The cruiser Medjidia, built for the Imperial Ottoman navy at Cramps, is under hurry orders to get home. She will leave here on March 1 in full fighting trim.

Face Powder In Cuba.

In Cuba there has never apparently been any dearth of face powder even among the lowliest. The Cuban woman, octogenarian as well as "sweet seventeen," considers powder a more necessary article of the toilet than soap and water and utterly indispensable to her attractiveness, which it is her absolute duty to preserve. All classes of the community are devoted to the powder puff, from the little six-year-old orphan in the asylum to the lady of high degree. In any Cuban school teachers and pupils are alike unsparingly powdered, and a powder box is to be found in every desk and as likely as not keeping company with the chalk used for the blackboard.

A RELIABLE MEDICINE

A Reporter of the Dispatch Inter-
views Our Local Druggists.

H. P. Dunn & Co.

The Interview of Interest to Every Person
In Brainerd.

So many patent medicines and advertised cures are now offered to the public that our readers should be glad to know the opinion of a man who has spent years in handling them, and profit by his advice.

Said Mr. Dunn, of H. P. Dunn & Co., "After having sold drugs and all kinds of medicines for so many years, naturally we have learned something about them, their value, and power to cure."

There is no one medicine that will cure everything, but this we do know, that if the people of Brainerd only realized the wonderful curative and strength-creating power of Vinol, we would not have clerks enough in our store to put up the orders for it."

Continued Mr. Dunn, "You see Vinol is not a patent medicine, and it actually does contain every one of the fifty odd medicinal curatives taken from the fresh cods' livers, with other vitalizing ingredients. It contains no poisonous or nauseating oil, and you know just what you are taking. Vinol has wonderful life-giving properties; it tones up and invigorates every organ of the body to do its work, and we know it will make rich, red blood, build up the depleted system and create strength."

"When I tell you that we have never sold in our store such a valuable remedy as Vinol for the following ailments, and that if it fails to accomplish what we say it will, we will refund your money, it will show our faith in its wonderful curative and vitalizing powers."

"It will build up run-down, tired, debilitated people. It will make the weak and sickly strong and well. It will make flesh for thin people. It will increase the appetite. It will cure nervousness, irritability and sleeplessness. It will cure stomach troubles, dyspepsia and indigestion. It will make rich, red blood. It will make weak, puny, ailing children strong and robust. It is the greatest strengthener and body builder in the world for old people. It is a great strengthener for weak women. It will positively cure chronic coughs and colds. It cures bronchitis. It makes weak lungs strong and is of untold value in consumption and all wasting diseases. For the convalescent it has no equal as a strength maker."

"We cannot make a stronger statement and can only ask such people in Brainerd to try Vinol on our guarantee." H. P. Dunn & Co., Druggists.

MUSIC AND DRAMA.

THE ELKS' MINSTRELS TONIGHT.

The last rehearsal for the Elks' minstrels which will be put on tonight at the Brainerd opera house was held yesterday afternoon at the play house and everything went off like the click of a clock, and Brainerd people will be given a genuine treat tonight with many happy surprises. The parts are all well taken and there will not be a lag or a drag in the whole performance. The second part is chuck full of good things and the first part teams with an effulgence of song and dozens of local hits. The setting for the first part is also unique and up-to-date and, in fact, there is something of interest about the whole show. Seats are selling fast and the few that will be left by tonight will be quickly taken.

Have you a full, heavy, mean feeling in your stomach after eating, feel lazy, tired and weak? Hollister's Rocky Mountain Tea will make you well, keeps you well. 35 cents. H. P. Dunn & Co.

A COLLEGE FOR DRESSMAKING

And Ladies Tailoring For Brainerd Soon
to Open.

With the co-operation and assistance of the citizens we will establish here in Brainerd an institution of learning which from the standpoint of usefulness will be second to none in this progressive community, namely a college in which the art of garment cutting and making, ladies' tailoring a specialty, will be taught; an institution where ladies, young and old, may assemble and there be taught by competent lady teachers how to cut and make any garment belonging to a lady's wardrobe regardless of length of time or number of lessons. Our motto is thoroughness. The system taught in this college is a graduated scale of tailor system, and cuts accurately all skirts, trimmings and draperies as easily as waist linings, and we would not have you think of it as a chart or paper model. Examine for yourself.

Every mother knows the difficulty she has encountered while trying to make garments from paper patterns and should impress upon her daughters the absolute necessity of such a course. The work in the college will not interfere with any other duties, and can be done during your leisure hours, when you might be occupied with something that would be of no practical use to you. Below will be found a partial list of what is taught in the college:

Our drafting department includes lessons in—

Taking measures,
Cutting plain waists,
Tight-fitting waists with bias dart,
Plain sleeves,
Drafting of all kinds of sleeves,
Stout form waists with one or two under-arm pieces,
Seamless waists,
Double-breasted or bias fronts,
Cutting evening costumes,
Tight fitting Princess,
Single or double-breasted coat,
Any kind of a wrap,
Cutting tailor gowns,
Cutting flared skirts,
Any style of skirt from 2 to 13 gore,
Reproducing styles from any magazine or fashion plate.

Our dressmaking department includes lessons in—

Basting from true principles,
Joining the different parts,
Trying on waists,
Finishing the inside of a waist,
Pressing and boning waists,
New process of feather boning,
Trimming and draping a waist,
Putting wraps, cloaks, jackets, etc., together and trimming sleeves,
Making all kinds of sleeves,
Putting in sleeves,
Making and hanging skirts,
Trimming skirts,
Making tailor gowns complete,
Putting on collars and revers.

The managers of this work will be in Brainerd about Feb 29 and will proceed to organize the class, and those who wish to have this plan of work more fully explained will please drop us a card in the postoffice and some of our representatives will call at your home. Respectfully,
—Clemens & Collin.

SICKROOM TACTICS.

A Successful Nurse Must Be Gentle,
Patient and Tactful.

The proper mental atmosphere created in a sickroom is often as important as the remedies given. A nurse should be in touch with her patient—that is, she should be sympathetic and not allow irritability and whims to upset her equanimity. The nurse who can create an atmosphere of repose, who can humor without indulging her patient in all the idiosyncrasies of sick people, has won half the battle. An unsympathetic, impatient nurse will do more to hinder recovery than the lack of remedies. It is not acts and words alone that help or hinder; her very thoughts are as potent as her general conduct, and the sensitive patient will be influenced for good or ill if the nurse were dumb. She should at all times maintain a positive uplifting mental attitude and remember that the patient's irritability or melancholia is justified by her physical condition and is not perverseness.

Gentleness, patience and, above all, tact are the requisites for good and intelligent nursing, and the nurse who lacks these qualities has indeed missed her calling. Patients have often failed to improve simply because they did not fancy their nurse. A nurse must be likable and make herself liked, and it takes only plain tact and a little circumspection to ingratiate herself with the most uninteresting of patients.

THE GYPSIES.

Their Tribes Existed in Europe
From Immemorial Times.

Gypsies were found in England about 1514, according to "A Dialogue of Sir Thomas More" (1529), but the exact year of their arrival is unknown. They were present in Scotland in 1505, and possibly they were the "Saracens" whose depredations in that country prior to 1400 are on record.

Batallard and other authors believe that gypsies existed in Europe from immemorial times, for they find no account of their crossing the Bosphorus, and no record is known to exist of their passage to England or Scotland.

They were better received in these countries than in any other, but so early as 1531 an act was passed requiring the Egyptians to quit the realm under pain of death, a similar edict being issued in Scotland in 1541 and at varying periods in most of the European states.

Transportation across the seas was among the milder means adopted and probably was the cause of much further dispersion of the tribes. Under Henry VIII, gypsies were shipped from England to Norway or France, and from France, so recently as 1802, they were deported to Africa.

UNTIMELY CHEERS.

The Misplaced Enthusiasm of an Ex-
Corpse in Ireland.

It was the rule in Ireland at one time that after an execution the body should hang an hour, but the sheriff, from mistaken lenity, would on some occasions look away after the prisoner had been turned off, while the friends of the culprit would hold up their companion by the waistband of the trousers so that the rope would not press upon his throat.

When the hour was expired the deceased was put into a cart, which was driven at a gallop along the story road. The jolting generally brought the prisoner to. One such recovery was so complete that the resuscitated man sat up in the coffin and gave three cheers.

One of his friends was so shocked at this indecent conduct that he hit the ex-corpse on the head with his shillalah and finished him. The question then arose whether the assailant could be tried for murder, but it was ruled that no man could be successfully charged with the murder of a man who was already dead in law.—Pearson's Weekly.

BULGARIA NOT SEEKING WAR.

Has No Intention of Starting Hostilities With Turkey.

Paris, Feb. 22.—M. Zolotovitz, the Bulgarian agent in Paris, made the following statement:

"I can give the most formal assurances that Bulgaria has more than ever resolved to do nothing to compromise the peace."

M. Zolotovitz further said Bulgaria was satisfied with the plan of reforms in Macedonia and would not seek to profit by the crisis in the far East.

Bulgaria sympathizes with Russia, but the military activity of the Turks is such a grave menace that Bulgaria must be prepared for war.

It is understood the powers are considering simultaneous representations to Constantinople and Sofia to compel a limitation to armaments.

The Turkish embassy is authorized to state categorically that the Ottoman government has not given any orders for the mobilization of troops.

Under Rush Orders.

Philadelphia, Feb. 22.—The cruiser Medjidia, built for the imperial Ottoman navy at Cramps, is under hurry orders to get home. She will leave here on March 1 in full fighting trim.

Face Powder in Cuba.

In Cuba there has never apparently been any dearth of face powder even among the lowliest. The Cuban woman, octogenarian as well as "sweet seventeen," considers powder a more necessary article of the toilet than soap and water and utterly indispensable to her attractiveness, which it is her absolute duty to preserve. All classes of the community are devoted to the powder puff, from the little six-year-old orphan in the asylum to the lady of high degree. In any Cuban school teachers and pupils are alike unsparingly powdered, and a powder box is to be found in every desk and as likely as not keeping company with the chalk used for the blackboard.

THREE MEET DEATH

SEVERAL OTHER PERSONS SERIOUSLY INJURED BY EXPLOSION AT BUFFALO.

GAS FLOWED INTO A TANK

BECAME IGNITED FROM A TORCH AND HURLED WORKMEN TO SUDDEN DEATH.

Buffalo, N. Y., Feb. 22.—Two men were asphyxiated, one was burned to death and several were seriously injured in an explosion of blast furnace gas at the plant of the Lackawanna Steel company Sunday.

The dead are: George Reynolds, Michael S. Smith, both masons, and Frank Prenatt.

The explosion occurred near powerhouse No. 2, where a large reservoir is situated. The reservoir is a tube, 100 feet long and about 10 feet in diameter, and was stored with gas to be used as motive power for a large blower engine.

Smith and Reynolds were working in the reservoir behind a bulkhead. A piece of the bulkhead was removed in the course of the operations. A valve which the men thought had been closed allowed gas to flow into the tank. They tried to escape but were overcome before they could reach the exit. A torch used by the men was left behind and when the gas reached it a terrific explosion occurred. Frank Prenatt and the men were trying to remove one of the unconscious men when the explosion occurred. All of them were hurled into the air. Prenatt died in a few minutes. Alexander Sanders was terribly burned and he may die.

ACCEPTS HAY'S SUGGESTION.

Russia Willing to Localize War in the Far East.

Washington, Feb. 22.—"Russia gladly and apparently willingly adopted the suggestion of Secretary Hay that as far as possible the belligerents in the far Eastern war localize hostilities and respect the neutrality of China in the interest of a continuance of peaceful intercourse with the rest of the world. My government expressed the conviction that Mr. Hay's suggestion was prompted by motives of the highest humanity and was mutually advantageous to the belligerents."

This statement was made by Count Cassini, the Russian ambassador, in the course of a conversation on the far Eastern situation. Count Cassini said all nations would hope for the success of Secretary Hay's plan, and he also said Russia would be victorious in the war.

TO PREVENT DEPRESSION.

French Financiers Will Try to Keep Securities Steady.

Paris, Feb. 22.—Prominent financiers were in consultation Sunday and measures were taken which will be put into operation to prevent a continuance of the depression which, since the opening of the war in the far East, and particularly during Friday last, characterized the bourse. The government is assisting those efforts by positively denying that there is any ground for alarm over further complications.

The serious result of the weakness of the market is shown by the estimates of securities listed on the bourse, which have diminished in value about one billion francs within the past two weeks.

Saturday wild excitement prevailed on the bourse as a result of wild rumors of a world-wide war growing out of the trouble in the Orient.

RUSSIANS IGNORE THE ORDER.

Have No Desire to Meet Japanese Vessels Off Shanghai.

Shanghai, Feb. 22.—Urged by the Japanese consul here, the taotai ordered the Russian gunboat Mandjur to leave the harbor before 5 o'clock Sunday afternoon, but the order was ignored. It is said that a Japanese squadron has been ordered to enforce the taotai's demand and to enable Japanese steamship companies to resume service between Japan and Shanghai.

TURKS AGAIN VICTORS.

Albanians Defeated With a Loss of Five Hundred.

Salonica, Macedonia, Feb. 22.—Another battle occurred between the insurgent Albanians in North Albania and the Turkish troops Feb. 18. The Albanians were beaten, losing 500 men killed or wounded. The Turks also lost heavily.

Constantinople, Feb. 22.—Shenshi Pasha has telegraphed the porte that order has been restored in North Albania and that the Albanians are dispersing.

COLONEL GABRIEL BOUCK DEAD.

Distinguished Wisconsin Lawyer and Soldier Dies of Old Age.

Oshkosh, Wis., Feb. 22.—Colonel Gabriel Bouck died here Sunday after an illness of several months. Death was due to debility and old age. Colonel Bouck was one of Wisconsin's best known lawyers. He distinguished himself in the Civil war, was later elected to congress as a Democrat and served one term as attorney general of the state.

WARSHIPS GO TO SHANGHAI.

Secretary Moody Orders American Vessels to Leave Chefoo.

Chefoo, Feb. 22.—The United States cruiser New Orleans and the gunboats Wilmington and Annapolis, which sailed from Manila on Feb. 15, under command of Rear Admiral Cooper, upon arriving here received orders from the secretary of the navy to return to Shanghai. When the outbreak of hostilities between Russia and Japan occurred, Admiral Evans, commanding the Asiatic fleet, dispatched a cruiser squadron to Shanghai and Admiral Cooper's squadron to Chefoo. Secretary Moody has ordered all the ships to Shanghai. They left immediately after coaling without giving any reason for their sudden departure.

The Russian forces in Manchuria are so far acting entirely on the defensive. Extensive preparations are being made at Dalny, Port Arthur, Newchwang and Liaoyang to prevent the threatened landing of the Japanese troops. A big force of men is at work on the damaged vessels in the Port Arthur harbor and efforts are being made to raise the battleship Retvizan.

Attempted Hostile Demonstration.

Vienna, Feb. 22.—Following a service of intercession in the Russian church at Prague for the success of Russian arms, several hundred Slav students attempted to make a hostile demonstration in front of the United States consulate but were prevented by the police.

WHEAT GOES TO \$1.07.

Sensational Advance in Price of Cereal at Chicago.

Chicago, Feb. 22.—Wheat for May delivery during the day sold at \$1.07 a bushel. The market was extremely active and the volume of trading was of enormous proportions. The sensational advance was due largely to the anxiety of shorts, who were afraid to maintain open trades over a two days' recess of the board.

Betting Among Englishwomen.

The habit of betting among women of the lower class is one which has grown with amazing rapidity, especially in the towns and villages of our industrial districts. And indeed no power of law seems to avail much against the vice.—London Hospital.

THREE MEET DEATH

SEVERAL OTHER PERSONS SERIOUSLY INJURED BY EXPLOSION AT BUFFALO.

GAS FLOWED INTO A TANK

BECAME IGNITED FROM A TORCH AND HURLED WORKMEN TO SUDDEN DEATH.

Buffalo, N. Y., Feb. 22.—Two men were asphyxiated, one was burned to death and several were seriously injured in an explosion of blast furnace gas at the plant of the Lackawanna Steel company Sunday.

The dead are: George Reynolds, Michael S. Smith, both masons, and Frank Prenatt.

The explosion occurred near powerhouse No. 2, where a large reservoir is situated. The reservoir is a tube, 100 feet long and about 10 feet in diameter, and was stored with gas to be used as motive power for a large blower engine.

Smith and Reynolds were working in the reservoir behind a bulkhead. A piece of the bulkhead was removed in the course of the operations. A valve which the men thought had been closed allowed gas to flow into the tank. They tried to escape but were overcome before they could reach the exit. A torch used by the men was left behind and when the gas reached it a terrific explosion occurred. Frank Prenatt and the men were trying to remove one of the unconscious men when the explosion occurred. All of them were hurled into the air. Prenatt died in a few minutes. Alexander Sanders was terribly burned and he may die.

ACCEPTS HAY'S SUGGESTION.

Russia Willing to Localize War in the Far East.

Washington, Feb. 22.—"Russia gladly and apparently willingly adopted the suggestion of Secretary Hay that as far as possible the belligerents in the far Eastern war localize hostilities and respect the neutrality of China in the interest of a continuance of peaceful intercourse with the rest of the world. My government expressed the conviction that Mr. Hay's suggestion was prompted by motives of the highest humanity and was mutually advantageous to the belligerents."

This statement was made by Count Cassini, the Russian ambassador, in the course of a conversation on the far Eastern situation. Count Cassini said all nations would hope for the success of Secretary Hay's plan, and he also said Russia would be victorious in the war.

TO PREVENT DEPRESSION.

French Financiers Will Try to Keep Securities Steady.

Paris, Feb. 22.—Prominent financiers were in consultation Sunday and measures were taken which will be put into operation to prevent a continuance of the depression which, since the opening of the war in the far East, and particularly during Friday last, characterized the bourse. The government is assisting those efforts by positively denying that there is any ground for alarm over further complications.

The serious result of the weakness of the market is shown by the estimates of securities listed on the bourse, which have diminished in value about one billion francs within the past two weeks.

Saturday wild excitement prevailed on the bourse as a result of wild rumors of a world-wide war growing out of the trouble in the Orient.

RUSSIANS IGNORE THE ORDER.

Have No Desire to Meet Japanese Vessels Off Shanghai.

Shanghai, Feb. 22.—Urged by the Japanese consul here, the taotai ordered the Russian gunboat Mandjur to leave the harbor before 5 o'clock Sunday afternoon, but the order was ignored. It is said that a Japanese squadron has been ordered to enforce the taotai's demand and to enable Japanese steamship companies to resume service between Japan and Shanghai.

TURKS AGAIN VICTORS.

Albanians Defeated With a Loss of Five Hundred.

Salonica, Macedonia, Feb. 22.—Another battle occurred between the insurgent Albanians in North Albania and the Turkish troops Feb. 18. The Albanians were beaten, losing 500 men killed or wounded. The Turks also lost heavily.

Constantinople, Feb. 22.—Shenshi Pasha has telegraphed the porte that order has been restored in North Albania and that the Albanians are dispersing.

COLONEL GABRIEL BOUCK DEAD.

Distinguished Wisconsin Lawyer and Soldier Dies of Old Age.

Oshkosh, Wis., Feb. 22.—Colonel Gabriel Bouck died here Sunday after an illness of several months. Death was due to debility and old age. Colonel Bouck was one of Wisconsin's best known lawyers. He distinguished himself in the Civil war, was later elected to congress as a Democrat and served one term as attorney general of the state.

President of Panama.

Panama, Feb. 22.—Dr. Amador was inaugurated as first president of the Republic of Panama at 4 o'clock Saturday afternoon before the national constitutional convention. Pablo Arsemena, president of the convention, administered the oath of office before a large crowd in front of the cathedral.

WARSHIPS GO TO SHANGHAI.

Secretary Moody Orders American Vessels to Leave Chefoo.

Chefoo, Feb. 22.—The United States cruiser New Orleans and the gunboats Wilmington and Annapolis, which sailed from Manila on Feb. 15, under command of Rear Admiral Cooper, upon arriving here received orders from the secretary of the navy to return to Shanghai. When the outbreak of hostilities between Russia and Japan occurred, Admiral Evans, commanding the Asiatic fleet, dispatched a cruiser squadron to Shanghai and Admiral Cooper's squadron to Chefoo. Secretary Moody has ordered all the ships to Shanghai. They left immediately after coaling without giving any reason for their sudden departure.

The Russian forces in Manchuria are so far acting entirely on the defensive. Extensive preparations are being made at Dairen, Port Arthur, Newchwang and Laiyang to prevent the threatened landing of the Japanese troops. A big force of men is at work on the damaged vessels in the Port Arthur harbor and efforts are being made to raise the battleship Retvizan.

Attempted Hostile Demonstration.

Vienna, Feb. 22.—Following a service of intercession in the Russian church at Prague for the success of Russian arms, several hundred Slav students attempted to make a hostile demonstration in front of the United States consulate but were prevented by the police.

WHEAT GOES TO \$1.07.

Sensational Advance in Price of Cereal at Chicago.

Chicago, Feb. 22.—Wheat for May delivery during the day sold at \$1.07 a bushel. The market was extremely active and the volume of trading was of enormous proportions. The sensational advance was due largely to the anxiety of shorts, who were afraid to maintain open trades over a two days' recess of the board.
